CASA ANIBAL

## About us

Casa Anibal is an exclusive fine dining establishment located in the very heart of Seville in a historic building designed by the great regionalist architect, **Aníbal González**.

This new concept, combining a **Hospitality School and Restaurant**, has made it a flagship establishment in the local catering sector.

Set in an iconic venue, where **decor, design, art, architecture** and the tiniest details come to life, giving it a unique personality.

The Casa Anibal Restaurant offers a culinary experience of the highest quality, based on **traditional Mediterranean cuisine** seasoned with **touches of the avant-garde**. The best raw ingredients and premium service complete the perfect equation. The result is a truly memorable experience for our customers, in which they can enjoy endless culinary delights.

# Aníbal González

Known as "the architect of Seville", **Aníbal González** was the foremost exponent of Sevillian regionalism at the beginning of the 20th century.

His prolific work includes some of the most iconic of Seville's landmarks, built for the **1929 Ibero-American Exhibition**, notably the spectacular **Plaza de España**.

It was within this same context that the **Pabellón de la Asociación Sevillana de la Caridad** (Seville Charity Association Pavilion) was built, which now houses Casa Aníbal, representing the perfect combination of history, art and tradition, but also modernity. This is the regionalism of Aníbal González and also the spirit of our restaurant.

## Our spaces

Casa Aníbal offers a **variety of different spaces** so that our clients can choose the most suitable atmosphere for each occasion.

The building has two spacious levels and is encircled by a **beautiful garden terrace**. On the ground floor, next to a large open kitchen, is the lobby or reception area where an imposing Winged Victory, a tribute to the work of Aníbal González, is the main feature of the décor. Next to this, there is an area with high tables, perfect for hosting events or enjoying a drink and some after-dinner conversation.

Our outdoor area features a **beautifully equipped terrace** with seating for up to eighty diners.

## Hospitality School

The Casa Aníbal Hospitality School was founded with the aim of offering high-quality training and contributing to the economic and social development of the hotel and catering sector in Seville.

The addition of a new training centre for the city's main business community makes Casa Aníbal an active player in the professionalisation and evolution of the sector, which is one of the main driving forces of today's economy.

The Hospitality School encourages a dual approach. On the one hand, theoretical teaching on the basic principles and necessary procedures for carrying out catering-related activities and on the other, practical training based on the theoretical knowledge acquired.

For this reason, we offer both courses and workshops that take place on the premises, as well as practical work experience in the restaurant itself. In this way, we not only aim to provide our students with comprehensive training, but also facilitate the introduction of highly qualified and experienced staff into the labour market.

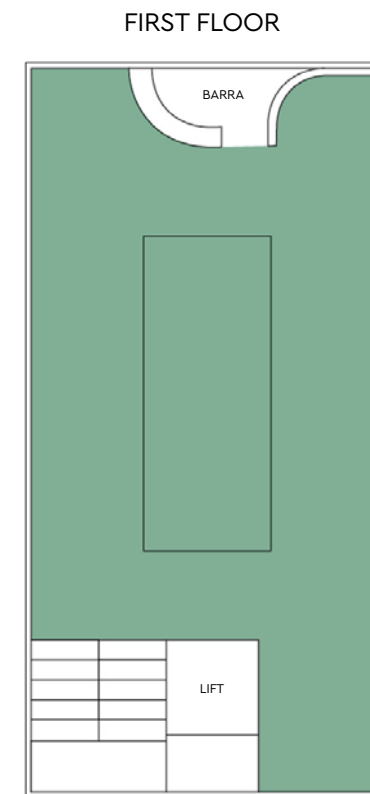

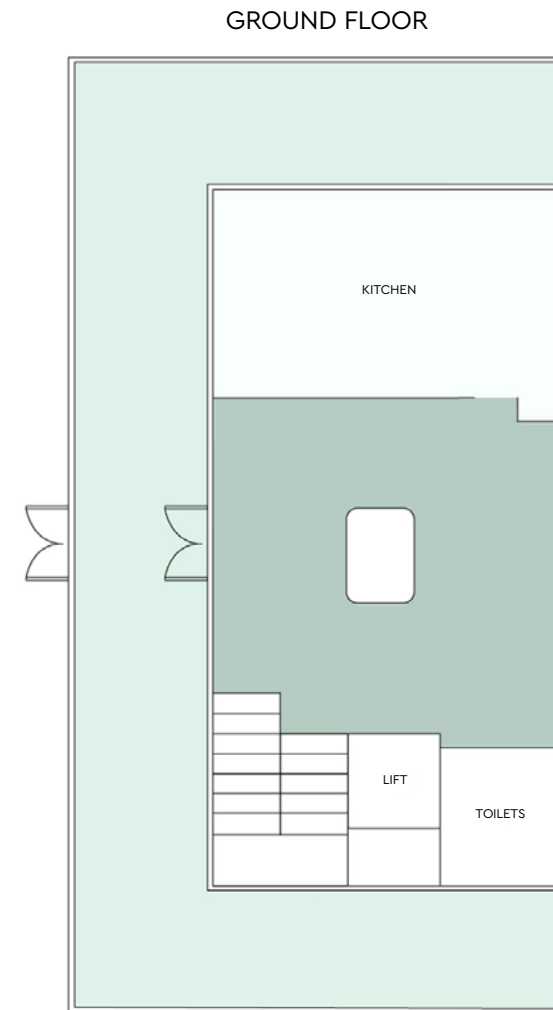

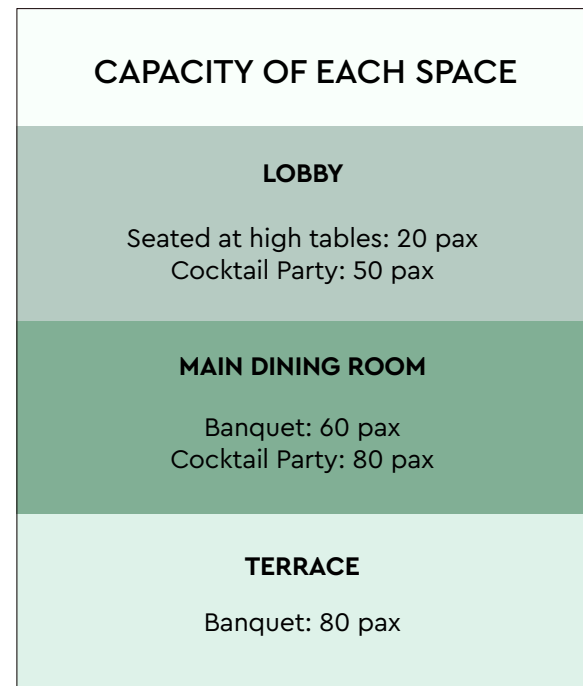

# Events

Due to its privileged location, right in the heart of Seville, as well as its large capacity and versatility, Casa Anibal is an ideal venue for holding a wide range of events.

This unique property has a surface area of more than 300 m<sup>2</sup>, split into three distinct areas: the lobby or reception area, the main dining room and the outdoor terrace.

Casa Anibal has the facilities and technical resources to hold any type of event, including state-of-the-art sound and lighting equipment, a fully equipped catering kitchen, WIFI connection, projectors and much more.

Our expert team can provide personalised advice on the design and organisation of each event, tailor-made to suit your needs.
